LB 13

last year...

SENATOR KILGARIN: Right.

SENATOR HABERMAN: ...that says it is going to cost the state taxpayers \$7 million to adopt this into our system, LB 13, instead of costing \$7 million it is only going to cost 2.

SENATOR KILGARIN: Instead of costing \$7 million, only cost about 1.4. Also I don't know if they have put the new fiscal notes in the books yet but they are done and I do know the fiscal analyst has given them to the bill office to put in the books. I don't think that they are in yet but they should be at any moment, the revised fiscal note.

SENATOR HABERMAN: Before we vote on the amendment I would like to know how you are going to do this miracle because it is a miracle.

SENATOR KILGARIN: Well be deleting those two...lines 18 through 20, Senator Haberman, what we are saying is we are doing away with that language that says all costs shall be borne by the state and we are specifying that only the same costs that are picked up in the other 91 or in the other county courts, other 91 counties with just county courts, are picked up by the state, nothing additional. We'd only be doing the same thing for Lincoln and Omaha or Douglas and Lancaster County as we are doing for the other 91 counties in the state.

SENATOR HABERMAN: Okay, do you say we do have a new fiscal note or we do not have a new fiscal note?

SENATOR KILGARIN: We do have a new fiscal note. We would have to check with the bill room. I know that the fiscal analyst has had it done I think since...for a day at least now and it has been turned into the bill room. I don't see it in the book yet.

SENATOR HABERMAN: Thank you, Senator Kilgarin.

SENATOR CLARK: Senator Beutler, did you want to clarify that?
